

Fix the Court Same-Day Audio Petition for January 18 Arguments in 15-1293, *Lee v. Tam*, and 15-1359, *Ashcroft v. Abbasi* (consolidated)

Petition text: "We the undersigned understand that oral argument is but a small portion of how the justices decide each case. Yet it is also one of only two opportunities per case in which members of the public, no matter where they live, can hear directly from the justices. We believe that should happen at the soonest available moment. While the court's media policies are debated internally, it should at the very least permit a same-day audio release in its most closely watched cases." Also available at TinyURL.com/SameDayAudio.

Note: within eight hours of publishing the petition, Americans from all 50 states had signed it
