

Fix the Court

1718 M Street NW, Suite 199

Washington, DC, 20036

Hon. Scott S. Harris

Clerk of the Supreme Court of the United States

One First Street NE

Washington, DC, 20543

July 20, 2015

Dear Clerk Harris:

My name is Gabe Roth, and I am executive director of Fix the Court, a national nonprofit organization that advocates for a more open and accountable U.S. Supreme Court.

The following is the text of a petition that 2,414 of our members from across the country signed this past week to encourage three justices to divest from individual stock holdings and place their assets into blind trusts:

Chief Justice John Roberts and Justices Stephen Breyer and Samuel Alito own hundreds of thousands of dollars in stock in companies that often have cases come before the court, either as named parties or as filers of *amicus curiae* briefs.

While owning shares in a litigant company statutorily requires recusal, owning shares in an amicus does not. And though we do not presume that the justices' portfolios impact their decision-making, we believe this type of stock ownership creates an unnecessary perception problem as to the impartiality of the high court and its members.

Fix the Court believes there is a simple solution, and today we are calling on our nation's top judges to place their assets into blind trusts – thus giving up day-to-day management of their portfolios until they're off the court.

The names of the signatories are enclosed, and we look forward to your and the justices' response.

Sincerely,

A handwritten signature in black ink, appearing to read 'Gabe Roth', written in a cursive, stylized script.

Gabe Roth

Fix the Court

The 2,414 signatories to the above petition:
