## Methodology

PSB conducted online interviews from June 8 - 15, 2018 among $\mathrm{n}=1,131$ U.S. likely voters. The margin of error for this study is +/- $2.91 \%$ at the $95 \%$ confidence level and larger for subgroups. Some percentages may add to more or less than $100 \%$ due to rounding. Where applicable, tracked findings reflect an October 2018 PSB online study (https://fixthecourt.com/wp-content/uploads/2018/10/October-2018-TL-poll-results.pdf) of $n=1,000$ U.S. likely voters conducted on behalf of Fix the Court.
