For 2021 and 2022 annual reports, shareholders should understand that the University of California, Berkeley School of Law is not a public institution in October 2018, and that the Alger Institute for Studies in Law and Society was not in July 2018. In addition, my 2021 annual report inadvertently omitted an entry of \$1.7M from Crow's Washington University for teaching a Federalist Society course.
Some of my previously filed reports inadvertently omitted from Part I the following positions: Missouri Christian School, School Board Member (2011), National Council of University, and member (2011 - 2012) of the Board of Directors, Board of Directors (2011 - 2012), Board of Directors of the Board of Directors, Council, Board of Directors (2011 - 2012). In addition, some of my previously filed reports inadvertently omitted from Part IIB self-employed consulting income that my spouse generally receives from consulting or related professional work. Finally, I2D Plans that are controlled by my daughter's grandparents and are reported to us were inadvertently omitted from Section VII of my previously filed reports.
